## Profile

I am a Web Developer with a huge passion for frontend technologies, my goal is to deliver world-class user interfaces with awesome usability. Also, my best strength is my willness to keep learning.

## Professional Experience

### Frontend developer, Webcat

03/2022 – present | Medellin, Colombia

I'm working on a migration from a monolithic Java website, to a React - Remix website.

### Frontend Developer, Kation Interactive

12/2020 – present | Santo Domingo, Dominican Republic

I developed e-commerce, corporative websites, and blogs using in most cases Nuxt.js with Tailwindcss as CSS framework, I also developed internal starter templates to create projects using Laravel Mix, Vite, and Nuxt. I work as a consultant since march.

### Web Developer, Habitat Web

Ciudad de México, México

I developed landing pages, blogs and do some fixes to old projects, and adding new features to them. In most of the cases, I worked using Vue.js, PHP, Wordpress, HTML, CSS, and Javascript.

## Education

### Mid-level informatic technician, Colegio María Auxiliadora

Lara, Venezuela

I learned the basics of programming, databases and how do computers work.

### Intermediate English, FundaUC

Lara, Venezuela

I learned about tenses, grammar and pronunciation, also in that course I improve my reading, speaking, and listening skills.

## Skills
